Dear Brother
This Steamer which brought
me your Letter of July 13th
also brought us Mr Young.
You can imagine how
rejoiced I felt. I like him
very much indeed, think
he will make an ex-
cellent Missionary. But
I feel so sorry he is
not a married man,
I do hope the Board will
not send any more

single men to this Country
I think it should be one
of the requirements, that they
will not commission any
man unless he agrees
to get married before
coming. If you could know
everything that I know here
you would not wonder
at my puling as I do
about this matter.
It is strange you did not
receive my letter, I hope
it was not lost. I sent
you a long letter by
the "Otter" two days
ago. In it I wrote you
my prospect, or rather
my hope of getting my
"Home" opened. This
fall, Mr Vanderbilt wants
the giving of this house
free of rent for a year

To be recognized as his wife's
donation to the work. I
I want you to write
a little article for your
paper stating this. You
will know the best form
to put it in. It will pl-
ease him greatly if you
do this. I fear we will
loose much of the help
that he would otherwise
give us. By the treatment
the Lindsleys give his wife,
caused but some feeling
that they have on account
of Mr & Mrs Vanderbilt
having an Episcopalian
minister to marry
them. Since Mrs C. went
to Portland she met Dr
Lindsleys daughters at a
church sociable, & they
did not recognize her.

Altho' she is a member of the
Dr Church. It made Mr Van
derbilt very indignant.
I wonder they cannot throw
aside all these personal
feelings - for the sake of Christ
Cause in this dark land,
Where he (Mr V.) has already
& can yet do so much to
aid us in our work.
Yes the Board sent me
$ 200. through Dr Lind-
ley this mail, & now
he writes me on a
list of all the moneys
I have received, (including
what I got from
him - & from you at
Portland, charging me
5-pt on the gold he & you
gave me, when I would
not had to pay but 3pt
here,) charging it to

me, & makes no reference to what I paid out for Philip & for school expenses. He wrote me at one time he "had finally been able to settle with the Board, & now he tells Mr Young he wants him to go over all the accounts, and see if he cannot straighten the matter up. I confess I am quite out of patience. The matter is perfectly plain to Mr Young. After I have explained it to him & says he does not see how Dr Leindsley can fail to understand it. All of this about Dr L. is confidential. I also he

to $4.50 on the one hund-
red & fifty I borrowed
from You. It is right
of course for you to
apply the $50. I rec-
eived from Rochester N.Y.
on. what I owe You, But
it is impossible for me
to pay the $50. now for
having seats made,
Altho we need the seats
very much. I think I
will have Mr Young
get some Lumber &
make (for he says he
is ready to do any kind
of work) some more
Enough seats such as I
had made last fall.
When our buildings
are put up this Lumber
can be used for something.
If I need not say any-

thing about this $50. until the school building is put up. Tell me what you think of this plan. There is nothing wrong about it is there? I will write the letter as you suggest to the Sabbath School, I do wish the Board would send my money direct to me, I dont see why they must send it to D E Lindsley. When I report to them. I have written to the Board about appointing Miss Dunbar. But I fear she will not get the appointment, for Mr Young tells me Dr. Lindsley is trying to have another niece of his appointed to come here. I do pray she will not

be sent. Yes I remember very well the episode you refer to in connection with me coming to Alaska. One thing Dr Lindsley said to me at that time was, we need a person of some executive ability to go to Alaska. If I don't know anything about business, I am inclined to think there are some men who don't know much more than I do. I suppose you have heard of Mr Mallery's death in Arizona. I received the set of Prangs Chromos this mail. Through a mistake they had never been sent. They are very nice. Love to Mrs Jackson & the children.

Rev Dr Jackson;

Dear Sir; We have anchored again. I left Mrs E at Vegas while I took Miss Sue Gates to Agua Negra from that I visited Cimarron in company with Bro Gallegas.

A reaction in the current caused my boat to drift back about 110 miles.

When I came through here the people who are interested in improvement wished me to stop. I thought little about it but after we were gone

[illegible] [illegible] [illegible]
to have to call here back.
[illegible] is great need of a school
here, & they want two schools
as soon as possible. There
is two physicians here & they
will be here as much.
Clinton Creek is 30 miles from Lake Bya
in the Peel River, N.W.T. [illegible]
We reached here an hour ago,
they are still fighting in here
& it is not safe yet. I shall
inform H.Q. & P. that here
is required for us, where there
[illegible] would have stood us
in the future, will write them today
& will enclose his letter, there is mail
[illegible] & will forward all [illegible] to
day.

I have written a short sketch
of the 2nd Presbyterian Church
which will contain a description
of the old and new Church,
which I shall send you soon.
I cannot say much in regard to
Conversion. There is no invitation
for them of any denomination.
They seem indifferent as to going
to heaven. Although I did not
preach to them, I went to call on a band
who went to the Methodist
visits, when there met a member
of the Congregational Church, the
Presbyterian & Methodist Church.
There is not a minister in the
Country, Episcopal or Low Church

C. & Elizabeth town a thriving town, & how many people did not learn. The Station for the N.P. will be about 20 miles East of Cimarron. That will be the nearest station to the town. I was in Santa Fe when McGovern was killed. Left next day and have been more than glad I thought could be located in the U.S. or Tyo, for I was exasperated and be overwhelmed. Perhaps you will be very anxious to know what I said, I will briefly state them to you.

July 14th McSween, & about 40 men came in to the town of Lincoln. There was no firing & our own family did not know they had come in. It was just as the moon arose after dark. Part of the Sheriff's posse were out of town. They were sent for & they reached town about sunset. Came in riding at full speed & hollowing & before getting off their horses began firing at McSween's house. About 60 shots fired. And for five days firing was kept up in the town.
July 19 [illegible] Col. Dudley & Command entered town about noon. Camped near centre of town. All McSweens side withdrew except himself & 10 men who remained with him in his own house.
About two hours after the troops came in, Mrs Shields house, which adjoined McS. was fired while she & Mrs & family were

throwing property-her little girl stepping
in the oil which was poured on the floor.
About the house two or three shots
Mr McSwain's house were fired by means
of coal oil, the sheriff's posse were
stationed around the house & kept
firing all the time, they attempted
to escape but were driven back
The 11 men inside were armed
secret also when about dark
they attempted to escape from the
house but were met immediately
covered by the flames-were shot!
not all-I believe some got off. but
the old Mr McSwain was killed.
Our house over between the firing was also
not found protection until about dark
Miss Cates
were left with the risk of her life tracked in snow
and blue, the C.C. immediately went over to
the house. J. F. Early

had become so careless

about raising money for the church. I told them that neither the Home Board nor I was charitable institutions & that out of as large congregations as we had more money ought to be raised. & since the opening of the church it has been full & I have endevored to preach on subjects that would wake the people up; to a sense of their duty; & so far have succeeded well—

I trust all will go on well. I am dish in debt but I try and not bother about it: but preach the Gospel:

Santa Fé, Aug. 2. 1878.

Rev. Sheldon Jackson.

Dear Sir:

As my husband has been absent for more than three weeks and as he may not be home for three weeks to come, I will answer your letter to the best of my ability, which, I fear, will not be very well.

Dr. Thomas is engaged in closing up the Cimarron & Fort Union and moving the missions to the Southern Ute in Colorado. His office and mine is now made Colonel

hand and will have to be attended to first opportunity he gets home, I presume. Then we calls for him to the Pueblos in all directions, but as to what he will do in that case, I cannot say.

From what I know of the route that he has on hand I fear that he will not be able to go to Zuñi in September, but of course, I cannot say positively.

I am very glad to learn that you have some more Illustrations designed for Zuñi. I hope that they are the kind, like the Shields, that can take things as they find them, and make the best of the situation. Whi-

Shields is neither so refined nor cultivated as Mrs. Palmer and does not display so much zeal in her conversation, but I think she displays more zeal in the right direction. Dr. Shields and wife are just the people for the ink and I hope that the Williams family will prove to be of the same stamp.

But I am digressing - you know that a woman can't write a business letter. With regard to the dress and cash for the building at Zion I am really not capable of giving advice, but I should suppose it might be made better to purchase

at the end of the railroad. These things are very high here. I could not say which would be the best route for Dr. Williams to take, by Alamosa or Trinidad, but if he takes the latter it would be wise to go directly to Albuquerque, and take his rig from there. Every thing is very cheap, better at Las Vegas or Albuquerque than at this place. I do not know that this is the case now and I do not know about the hardware, however, I am told by those that anything would be cheaper in Las Vegas than here.

I do not believe that a tent could be hired here at all. I know of some but those belonging to the

Government. If the Palmers have not disposed of their Bible I think that would be a good thing to get, if you could get to have the family sworn in it. Dr. Thomas still has his ambulance, but has also a light wagon. You could probably have the wagon but that would not do much good without the horses, and I have not the most remote idea when or in what condition the horses will be at that time. Dr. Thomas has them with him now and they are having a hard trip, and Dr. Thomas has died since he left home. I am

Sorry not to be able to give you more definite and satisfactory information on any of these points, but you, at least, know why you do not get it.

With love to Mrs. Johnson

Very sincerely yours

Dear Bro.

Yours of the 27th ult. is at hand.

We all deeply regret that Dr Palmer left Zuni.

Our ladies concluded to give their money this year to the erection of a house at Zuni. It will probably amount to $50. This is small but several of the ladies ere[illegible] in this (Syracuse) Presbytery have become interested in this same object - will probably devote their offerings to this purpose

I will do what I can
to help it along.

Dear Brother

I write you in regard to your proposal to me, that I should preach here on the alternate Sabbaths when Mr. Emery is not here.

I am willing to do it. But I desire you to make the arrangement that it may not seem to be a matter of my own seeking, and also that you shall secure some compensation for me, for my service as you proposed.

The Methodists are treating me very kindly here, and as they often express it, on account of my age, and the people here often do the same, all of which is very comfortable and encouraging to me.

You asked me how it is with me
since my getting on here. I can
hardly tell. But since you were
here, I have often met with this
inquiry, "Why are you not in charge
of that church? You are an old
minister, and living here?
Why! Is that by the minister!
This may operate against him, since
there is a strong prejudice against
boy preachers. People say they want
a man of experience and judgment
to instruct them. Then I have heard
Br. J.'s sermon characterized sev-
erally "a pretty ass!"
I do not say these things to discourage
Br. J. but to meet your inquiry,
"How is Br. J. getting on!"
The arrangement you proposed may
relieve the difficulty, and if a suffi-
cient support can be secured for
that may induce my continued stay
here. Yours truly Lewis Hamilton

Dear Bro Jackson, I am very glad to learn from your letter which reached me the Morning that Miss Rae, Miss Pitts and Wm Hall were to be sent to work in our Annuals. I think probably the name of my Brother John was also the Board at the same time with the others. I sent them all together to Dr Kendall. But it is my opinion that Conejos, that is Brother Jahn's assigned field is more important than all the rest. because there is a large field containing many villages in the most of which we can

find a few friends to welcome the
Gospel at once. In this way
we can go in and possess the
land. Christ came and died
and left it in and possesses it for
none other. I want these men
& others to become evangelists
as soon as they get the language
& will preach in it.

Brother is an excellent
teacher and one of the most
devoted men he is old enough
to be warned by the follies of
younger life and within a
few years he is wholly given
to the work of Christ.

I really think he is well suited
for the work in Canajas and
for that reason I do want him to
be Commissioned and sent
there and not because he is my
brother. Miss. Emma M. ~~Roberts~~ Rose

I will further ask that you

Dear Dr Jackson

My dear friend Make it a point to
hear from me always, but I want to say a few
words to you about our School at the
Fair as I wish to send you one to be
there shortly. Mr Smith has intimated to the Board, that the Congregational Educational Soc, have advertised to open a School there Sept 1st. I shall not go over the
reasons, for the failure of
the Gentlemen sent to the Fair, in the
case. One reason no doubt was, that
they were not ready for Gentlemen
of their culture, who could not

come down to an elementary School, to which a Lady is better adapted than Mendall is fully aware of other reasons, I advised us last night to do nothing - do please under here been no School, but for our good Mrs Griffith I do not see that Miss Mossett School need at all affect ours - Please been much disappointed in not hearing a person whose name was furnished me by Dr Mendall - but I trust that some one else may offer, & certain than Yes may come at Santa Fé - Pleasure Mrs Griffith will re-open the School at the usual

time, I all go on as usual. I shall be glad however, to have some communication from you upon the subject while you are there, as to what is most desirable for us to do. If we could have a clergyman there whose wife could teach, it seems to me it would be the best thing we could do. Perhaps you may know such an one, & then bring us out of all our difficulties. I see Hill, it being known reported he was, that Mr Smith was about to leave. I do not dare to interfere with him in any way, & it may be best

he contemplates my change - but whether or not, as mean & vile life it seems to me, would be the best thing - and as we have our Objects there to give them a Home, they could start at once - Please let me hear if you think any such - We are quiet at work all the time - and I trust our work is about to enlarge Greatly

Yours very truly

Dear Bro. Jackson,

I will speak of Trail Creek & the religious interest there. I have recently seen a number of persons who live there & from them have received corroborative testimony to the statements made by brother Price. The Freeland Mine is large & in the hands of a large & wealthy Company. They now employ 63 men & are constantly increasing the number. Enlargement of operations is continually going on, and a Concentration Mill will, in all probability, soon be built. There seems no doubt about its being a permanent Mining

Camp. The people are chiefly Welsh and are well instructed and industrious. Brother Price is working diligently among them. There are now 30 persons ready to join in the organization of a church. Also a number of enquiring inquirers. They have a Sabbath School with 40 members. Prayer Meeting is well attended — ten of their number being ready at all times to take a public part. An attempt was recently made to open a liquor saloon, but a number of leading men, headed by brother Price, succeeded in preventing. Since then they have organized a Temperance Society and are determined to hold the ground against all liquor men.

altogether, it is a very hopeful field for present results. — twice as much so as Idaho Springs. I think a church ought to be organized to hold together the little band, and introduce them into the Presbyterian family. I write now particularly, because a majority of the Christians among them have been Congregationalists and will probably apply to that body for help if we do not soon move in the matter. They are becoming somewhat impatient. At present they are a unit for a Pres. Ch. but say they can't wait much longer. I have been encouraging them & giving them assurance.

They do not contemplate the Erection of a Church building. They will occupy the School house that is to be built down. Their hope is to be combined with Idaho Springs & Lawson's into one Pastorate. This seems practicable.

They desire to Know beforehand when you will be with them, & also greatly desire that the services should take place on the Sabbath, as there is no other time when all can be present. They have quite urgently requested me to be present with you, which I will try & do, if you can give me notice.

Idaho Springs is their Post Office at present. Write to William D. Price, Idaho Springs.

Yours truly I. A. Johnston.

I have just received the Rocky Mountain Presbyterian for August. I observe in it a notice in regard to the church at Monument. The thought just struck me, how would that do for me? I do not think that I will engage here for another year. If I have to choose between remaining here & go in East, I believe I shall choose the East. In some respects I am better here, but taking it all in all, I can do more work East, I think, too, I can do more good, & perhaps receive more good. I certainly can obtain much more money. That, however, may be an evil & not a good.

I would like, however, to try some favourable situation somewhere

along the foot hills. I know nothing about the church at Monument, & very little about the surrounding county. If there is there a hopeful field for labor, I would like to try it; & think I will write to the Gage in regard to it; I cannot leave here, however, before the 1st of Oct.

You may have heard that we have a young son — now seven weeks old.

Mr. Johnston is well and joins in love to yourself & Mrs. Jackson.

Most truly

Dear Bro. Your letter receiving & my commission came on for six months. Grant Co. is 50.00 less than I applied for: on the field they will not at present be able to raise $100.00 ally support will be inadequate. But I received no check, and could not well do otherwise than to remain until the last of Oct or 1st Nov. You will no doubt think it best to get a man to fill this place here when I leave. I think it important to hold this field all the time, without a months vacancy if you wish to have the Church. Sometime between now and the 25th of Oct. procure me a passage to Fairplay via Kansas City & Pueblo & you can use me. Quid it me. Our Sab. Sch. are doing well. In other respects about middling well. Bro Jackson. Bro Mondragon has just returned from preaching in Sinicero and reports progress there. The R.R. is being pushed through as fast as possible. They are at work grading as far down as Guadelaupe six miles only from Sinicero. It is suggested to me that the Bd will see easily the great need of putting a Teacher to begin the work at once. We should have a school both at Sinicero and Guadelaupe the County seat of that County and only one of many villages which are in that large valley of the Conejos River. If we can establish a good school in one of these places we will be in position to know just so long as we are

permanent railroad of a higher class should be put by and by. I wrote to Dr Kendall yesterday saying before him the whole matter and it does seem to me that the B.T. will see the necessity of appointing Bro. John for the Canejo Valley. In view of this probability I will ask you to send John A Roberts Knoxville, Iowa a card for half fare over the A. T. & S. F. R. R. if you please. I do want that field occupied at once. And I want to meet the whole party at K K at the same time.

Dear Bro

I will venture once more to address you. Twice since I came here no response has yet come. I suppose you are very busy, or my letters have not found you. I want very much to hear from you before my mind is entirely made up to stay or go. Besides other things that I have already written to you, which make it questionable whether I should stay here, the alkaly water does not seem to be wholesome for my wife. She has kidney trouble at times. I almost feared before coming here that it was ~~adv~~ too far South. I would have been glad indeed to have seen you before we came here. Then we could have had a better understanding. This place needs a man very much

And it may be that I ought to stay here. If so I am willing to do the best I can until it becomes clearly my duty to go some where else. But to be entirely frank I confess that we would like a place further north in the state if the Lord in his kind providence should open up such a place for us. Please let us hear from you very soon. Dr Palmer has had two letters from you since I came here.

It is very warm here.

Fraternally & Kindly Yours

My Dear Sir:

Your letter of July 11th, in regard to Dr. Williams, was rec'd some time somewhere. I have been engaged in moving Cimarron Indians for a month & am not likely to get the business all closed up for another month. I am waiting here for Inspector Watkins, but expect to start for Santa Fe in two or three days at the outside. I do not know yet what employés I am allowed for the present fiscal year, but presume I will have as many teachers as last year. I have no doubt that I can employ Dr. Williams, & am glad that the prospect for getting a man for Juni is so good.

I have heard nothing from the Indian Office in regard to buildings & do not much expect to hear anything. My business is

shaping itself now so that I hardly expect to go to Zuñi this fall — if I do go will be glad to have you go along.

Allow me to remind the Board through you that it is not guaranteeing permanent support to the missionaries sent to the Pueblo I pray that this is not right & is not in accordance with my understanding of our compact. Allow me to urge upon you to give Jemez the first attention in regard to buildings (at least before Zuñi) because there we have a first-class man & wife who will accomplish something if they are sustained. Jemez is a more promising field than Zuñi

Mrs. Thomas & all at Santa Fé were flourishing at last accounts.

Best regards to Mrs. Jackson, & tell her the camping is fine down here now.

Dear Brother:

I feel like writing to you in reference to our work here. Since I came I have not been able to secure any hymn books for church services or for the Sabbath School. We have no library books no catechisms no Bibles no papers - in fact nothing that belongs to a church and Sabbath School. You kindly gave me the address of Rev Robert Irwin of the Board of Publication but to my appeal for books and papers he sent a "circular" describing what the Board desired to do. I have written to the East but as yet have received no reply to my requests. Can you

suggest any plan by which we can help ourselves? We owe for two months rent of our hall and have now started on the third month. I shall try to raise some money here to pay our rent but I wish that I could get the Board of Church Erection to pay our rent for a few months till we get nicely started. I am going to write to the Board and it would be a favor to me we needs do the cause of missions good if you would write also. Please let me know who pays the rent of halls in other mission fields when a mission is just started? The people here are not like Scotties in other places, liberal in supporting a church, but what little money they have they keep or spend it.

I am surprised at the little interest that the congregationalists take in our church. I have visited them all and requested them to sign our list of charter members for organization; but they have all refused except Mrs & Miss Schram, Mr Peebles relatives. If I had to depend on the congregationalists I would fail of forming a church. I have fourteen signers to our list for organization and I expect two more. Our services are well attended; our Sabbath School numbers fifty six. On the last two Sabbaths there were fifty in attendance at S.S.

after a month or two I think we will get on nicely.

I wish you would be kind enough to do me another favor. If you would wait until January for the $20 that you loaned me it would be a great help to me. I find that I will need all that I can obtain from the Board and by January I shall be able to return your kind loan without being at all cramped.

I have written to Mr McVicar about organization; he says he thinks we had better wait till after Presbytery meets which will be the first Tuesday in September.

My wife joins me in sending kind regards to you. Receive our thanks for the "Rocky Mountain Presbyterian"

Dear Bro. Jackson.

Received yours of the 10th last evening. I will try to be with you at Trail Run on Sat. & Sabbath. The best way to go is by R. R. to the mouth of the Creek. The train will stop at Golden. From that point to the mine is about 2½ miles. We can walk that. I will write them about it, & perhaps some one may meet us with a carriage, altho it is doubtful if such a thing can be done. You take the 7 o'clock train from Denver, I will take the 8.20 train from Central, will meet at the Junction & reach the mouth

of Fruit Creek about
11 o'clock. We will be in good
order for dinner by the time
we reach the mining camps.

I will write to-day to Mr.

I believe this is all I need
say upon this matter.

If you see any ministerial
loafers about Denver who are
pained in their consciences
by reason of their idleness,
& who may be looking about
for an opportunity to dispense
a free Gospel, you may send
one of them to Central to preach
for me. You must make him
clearly understand, however,
that we are too poor in purse and
too generous in spirit, to deprive

him of the luxury of preaching a free Gospel. If he is a free-gratis-for-nothing-without-any pay preacher, send him along. I have done considerable of such preaching. I do not, however, find very many who regard such labors a pleasurable pastime.

I will discuss Trinidad when I see you.

My Dear Bro. Jackson;

Am I not to be commissioned this year for this field? Three months of the present year have now gone by & no commission yet. Br. Dickson wrote me for facts about three months ago. I sent the facts, but nothing comes in answer. We cannot live here apart from Home Mission aid. The fact is we have been living the year past from hand to mouth, even with aid. If therefore this mission is not to be sustained we should have known before the year closed. In Bro. Dickson's note he intimated that the Board concluded, or were about to conclude that this field was not worth sustaining. Is it possible that the spirit of missions in our church is dying out? Then woe to the church.

Here are two thousand souls in a large measure depending upon our church for the Gospel. Shall we abandon the work? If we do it will be ignominious defeat. Not holding the fort. So far as I am able to judge this is just as good a field as any there is in Colorado. Last year we did church work to the amount of $500. Many souls were watered & fed. Some

were regenerated. Many children were taught in the way of life. This year we hope to build a church at Rosita. By God's blessing we will do it.

Please write to New York. Present the case. And as soon as possible give us light. It is no pleasant thing to be laboring in the dark, in doubt.

In the letter you answered, I did not mean to convey the impression that I wanted you as an individual to give one hundred dollars toward building a church at Rosita. I thought perhaps you knew some place where you could get it for us. If you gave $200 to Longmont out of your own funds you did what I did. You did wrong. I did wrong in giving $50. I gave more than any one there. They have the good. I none. Well, what is the ministry but a work of sacrifice for others. We hope for treasures in the skies.

Dear Bro

Your favors of the 7th and 10th have both been received. I am also sorry that we were not entirely satisfied with this place. But it seemed impossible under the circumstances. We have been willing and anxious to know the will of God in the matter. And we want to do just his will. And so we have prayerfully waited for him to make it plain. And I had begun to feel that it

[illegible] for us to work
here for a time. But when
you take counsel with the

I am sure will the money ever come in to enable me to go, I cannot tell, but there is not much to cut the prospect, thinking, and it will never be the case. Father Hutchison sent word and spoke a kind word for me saying the pulpit when I am away. What arrangements have been made in regard to that? The field below seems to be growing in importance. Davonia and Ocean struck over the range at [illegible] and there is a mining camp on the South Arkansas Route & can attend to them and Leadville and vicinity too I suppose. A man would need $2,500 a year up here no doubt but I know with a help of one couple hours a day could get on with less. If it can be done conveniently it seems to me that the field should be divided as last for one man is surely needed there all the time. So Walter Hamilton and the others think, and it seems to me that is wise & suits their views. Wishing you success in the new position I am

Dear Sir.

I am in receipt of a letter dated July 30. from the Hon. Commissioner, granting authority to remove this Agency to some more desirable locality and as soon Inspector Watkins gets around we will make a tour of the Reservation with reference to selecting such a site as will in all probability insure the attendance of Navajo Children at the Agency School. The erection of School houses has also been authorized, but I fear that little can be done this year beyond the selection of location, and possibly the letting

Dear Brother Jackson.

I was very much pleased to hear from you. I regret exceedingly that you are not able to be with us this week. I know that in our trip to the Park, we would enjoy your company. However we must expect disappointments. Now I want you to say to your good wife - when you return from New Mexico - that you will go to Montana and spend not less than three months among the Brethren.

Do you know - that is just what we want! Don't think of "doing" Montana in a hurry. You have not been here in a long time and therefore we shall claim and expect a long visit. Now I will

I will tell you why. You see Rev Bishop Little of the Epis Ch comes around each year and spends about three months and makes a thorough job of it. Consequently - he is very popular among all the people.

Now - you see - I dont want any Epis Man to get the best of you in this respect.

Now let us know when you are coming into the Limitow - and which way you will travel.

Either come by way of Virginia City - then this way and around to Helena - Deer Lodge - Missoula and out again - or the reverse.

Or go just in the opposite way. I propose that you have company all the way - that Bro Russell go through his valley with you - that Bro Cook go through

the Bitter Root country with you. that Bro Hewitt be with you in Helena — and then the Pickle Bear valley — that Bro Crittenden meet you at Gallatin city — that I go with you to the Yellowstone valley — to Chico — then to Sonoma and Virginia city. So if you spend from two to three weeks with each of us — we can make a most thorough sweep of the whole country. This is the plan that I shall advocate before Presidency — unless some of the Brethren have a better plan. I expect the brethren in about three days.

Bring a Thanksgiving Sermon with you — and come prepared to eat your Thanksgiving Turkey in Montana.

As you know Nov & Dec will be better months for getting about than October. I hope that by the time

you reach L / Bozeman - you will find me in the first ~~passenger~~ built in Montana. I will explain when we meet.

Written in haste,

Most sincerely Yours

Aug 19/08

Dear Bro.

Yours of the 1st received Aug 17th. I see by the envelope that it was directed to Lake City Utah & restamped & mailed to me – this will account for the delay –

I am pleased to know that you remember us in your prayers. I trust that the one hundred dollars may be made up in some way.

As for my going to Leadville to build a church this fall – it will be an utter impossibility from the fact that I am completely worked down. I

have been sick for over a month
hardly able to attend to my duties
yet I have preached ~~twice~~ twice
each sabbath because I am the
only minister in the place.

Do you think it ~~would~~
would be wise to desert a
Church as large as Salt Lake City
for so long a time.

It would break up my
church. I am commissioned to
preach at Salt City, and the
few members that I have are
doing their best to raise what
was promised me on the field
others are coming in & everything
is looking more encouraging
& the few who have remained
through all the ups & downs
of the church say that if I leave
this ball just as things are
begining to look bright - it
will discourage them.

Nor is it to be wondered
at - because they have fought
hard - & while there has not
been a great deal of money
raised for my salery - there
has been a great deal of money
raised for the church - when
the church was dedicated we all
supposed we were out of debt -
but we still had considerable
money to raise - & since then
we have built a bell tower costing
$100.00 & have managed to pay
all expenses connected with the
church. (Payed all the last of Aug)

As you well know there has
been a strong effort made by other
denominations to get a hold in
Salt City - but so far I have always
held the congregation - members

of the different churches have said if they could get rid of me they would send for a minister: & when I closed the church for two sabbaths they told me to my face that they wished me no harm - only if I would leave it would give them a chance to do something.

I do not say this to blow my own horne - but simply to let you know the facts about my field.

Dear Bro. I fully coincide with you in yours views about laying foundations & I believe that no church organization can prosper without a church building - yet at the same time it will be impossible for me to travel about the state building churches and have a charge at the same time:

I am surprised that the men who see the need of churches on their fields do not go to work and build churches: Kind regards to all the family: Mrs Daily sends regards Yours in the one hope

I am a good deal discouraged with some patients of our work. Ministers are so ungrateful. Changes are so frequent. I find it very difficult to become acquainted with our church members & how to manage, & how to become useful to them. So much do we, sisters, & workers need to have the holy spirit power to have the right success. The missionary spirit seems dying. Do you notice such things. Dear Doctor

Yours of August 14th inst just received. You had got evidently received my letter of the 12th inst. I am glad to know that you have sent forward some material for a new house. I regret to learn that Dr Williams has abandoned the idea of coming to Zuñi as he seems to be highly recommended by the people at the East. I hope that you will find some person to come at once. The coming man whoever he may be, should be on the ground just as soon as the material reaches Zuñi. Some responsible person should be there at the instant to look after the doors and windows. I do not consider

anything like doors, windows, boards &c safe in the hands of those Indians. They know use for just such articles themselves, and will find some way to carry off for their private use anything they can lay hands on. It will not be wise to leave anything where they can get at it without an honest white man to guard it. If a permanent teacher is available, it would be the best for him to come on with the doors and windows &c and such other articles of household stuff including provisions, as we may need for some months.

Relative to Mr. Crane. I am very sorry for him as he has told me. But he is building a new house for himself this summer, and cannot afford the time, the wagons, nor horses to haul the lumber to him. Besides he has just put in a bid for supplying this post with hay

which will keep him and his teams constantly occupied. Is it not doing very well for him, that he gives the lumber? The Zuñi indians have wagons with ox teams that can be hired to haul the lumber, and it seems to me that they better be engaged to do it. Remember that there is a heavy mountain to cross, and the roads since and during this rainy season are very heavy.

Ox or horse teams can be obtained at the mormon settlement if the Zuñi indians cannot leave their work.

I cannot see how you will be able to get from here to Zuñi, and cannot see what good you can do by coming up here. Should you go to Zuñi on or about the 5 prox, as you propose, what good could you do there until the teams arrive with the "doors and windows" and a carpenter, or some sort of a

workman comes to lay out the work for the house? It really seems to me the best way for the man who drives the team that hauls the "doors and windows" to be one who can also turn to and build the house; or he should have a carpenter with him.

I have advised you in my last letter not to come yourself, but send some man who has the requisite physical strength and skill, to lay stone, adobes, cut and hew timber - in a word build a house. Remember too, that a well must be dug. Indian labor can be depended on but it must be paid for, either in money, tobacco or provisions. If you decide to visit Zuñi in person, it would be less expensive to go there with the team that conveys the "doors and windows." You would see Fort Wingate, and could proceed direct by an easy road to Zuñi. But as I said in my former letter, the permanent teacher and the workmen are the parties to send in advance to do

the preliminary work, of putting up the house, and make all ready for the family to come, when everything is made ready for their comfort.

As this may not reach you before you leave Denver I will send it to Dr Thomas. Some one will send it to you while at Santa Fe.

I remain Yours very truly

Dear Bro. Hamilton

Your letter of yesterday to hand and I have shown it around to our people and the universal feeling is that of regret. When I wrote you on Monday I did not know that any one had been assigned by the Methodist to take Rev. Green's place. (If I had known I would have written just the same kind of a letter) Green was to see us before leaving but he did not mention that any one was to take his place, Mr. Caufman may be more adapted to the work here and give better satisfaction than Green but there is that feeling against the Methodist that I doubt if he can overcome it. Green never tried to unite the (They virtually did it themselves but were not believed by him) different denominations as you speak of but worked to build up an M. E. Church and yet if the people of all sects had not united to help him his own people could not and did not contribute $50. in the entire year for his support. Your theory of unity is practical (& Green did work with almost any kind of a prospect must to change it) here but I doubt if the Methodists can do it. Mr. G. did not make a single convert while here or add a member to the Church and was the cause of much contention and bad feeling among the women and the people here appreciate the fact that they have been duped imposed on and deceived by two M. E. ministers & they will be very slow to do any thing more for any

one who comes here against their wishes and is not of their own choosing. The general desire was for a Presbyterian and they would have done generously for one (considering their ability) and your suggestion of selling the church to the M.E. will not be listened to for an instant. If Mr. C. & wife go to work with a will and act prudently they may unite the sects but they can not get much support as Methodists. Another thing we feel that we must have a select school or private teacher for say ten scholars and if Mr. C., or his wife, will fill this bill there will be some hopes for him - otherwise he will certainly have a hard road as we will then look for a teacher from some other source and he will loose that much of his head and butter. If you have given up coming we will not give up but wait until the other man builds up or "starves out" and then move again. If a Presbyterian had come here (and especially you) no other man could have gotten $50 per month in the town. I don't understand why the presbyterians should have so little "back bone" & leave us this way. shoved out by pure "cheek" and against the will of the people. I am free to say that I feel discouraged. I may be wrong but I think that the presbyterians ought to come here under the circumstances and while you not coming is a disappointment to all I can't blame you. as I told you when in Sarem that it seemed wrong to ask you to leave so fine a congregation to come here. yet we think there are many who would be glad to come and who would satisfy us as the next best we could do after yourself. However I suppose we must give this man a chance—

Very truly G. C. Smith

My Dear Bro. Jackson,

As you know my ch. here was dedicated July 28th I failed my $320. & dedicated on the 21st - but stated it as far as subscriptions went by noon of the 28th. We found cost the about $1480. + lot worth $225. a total of $1,705. The Cheapest church of finish I believe ever built in Colorado built tastefully, appropiately, and finished complete, with a room for me to live in and a stable for the horse and buckboard on the back of the lot. I promised. pay in 30 days after dedication. I am here now to stay

the End of the 28th - the
Completion of the 30 days,
so as far as in me lies
to keep faith with those
who have trusted us - and
Collect if possible all due.
and then promptly for
the aid promised from
the Board. It is Evident
that all cannot be collected
in that time. Yet I must
send for what the Board
will give us.

2. We asked first before
the Church was finished, & en
desiring back as little as
possible, $425. We heard
nothing of this petition. When
Church was dedicated we
found Cost greater than
we anticipated, by $180.
So we asked, not hearing

of the other petition for $490.
which we actually need,
if not more. This petition
arrived in N. Y. one day
after Bd. met and gave us
by vote the $425. And Dr.
Wilson writes he can promise
us no more &c. &c. &c.
3. I dedicated on a basis of
getting $425. But because
I had $700. drains that
day - I dare not make
any 10 or 15 per cent margin
for the customary loss - one
sunstroke. So to get barely
$425. leaves us behind hand
4. Now, I never have a
stone unturned for money
on any Enterprise - most of
all on a Church Erection - and
my 8 days of magnificent work
and getting $700. proves it to

I went to whorehouses - dancehall saloons - Chinamen Mexicans negroes and Chinamen and children - I tried every person though often faint and sick rising from prayer in weakness to win another dollar. I've done good financial work before, but this, taking into account the meanness of the town - my slight acquaintance with the people every one of whom nearly had snubbed them utmost to move from Garland Inn and the rapidity of the work, is my best job. It was all like the "night of it" - "with a Rush" as "Calvin" said.
And though I've built four Chs. since '72, yet it - the first Ruben. I've ever collected after dedication - hitherto I quit on dedication day. I stand almost alone in the

matter - and I am the lazy got
goer :- of $ 75.00 . I owe $ 2.50
for service rendered here in 4
months ! ! ! And the Home Bd. cut me down
$100. after I cut down $300. ! ! !
But this is naught - what
I want is the sum to get
enough of money to close this
business as I have promised
on Aug. 28th.
I want to close it in one
of several ways :-
1. To collect all possible by
that time - and get on short
odds the balance whatever it
may be from the Board of Ch.
Election.
2. If I come out short $75.
to $100. ~~to~~, I want that money
furnished me either 1. by
loan till I can collect, and
what I fail to collect and re-
turn, let it become a gift,
for $25 - $50 might be collected
in 90 days which could not be

Dear Geo Jackson.

I have just written bro: McNiece, that I shall not probably be at our next meeting of Presbytery, on the 10th of September. Cowys Cleaning house has cost me so much, that I do not see how I possibly can spare the money. Then I have to get him clothes etc.

Do you expect to be present? I hope you will. Since I entered the Ministry this will be the first time I have ever been absent from my Presbytery

I have always found these meetings a great blessing. I think I have never ~~not~~ gone from one without an earnest wish and prayer that I might be a more earnest pleader and a more faithful pastor, but I do not see how I can possibly go this fall.

Dear Doctor:

I received your note yesterday and shall adopt your suggestion about going to the South Arkansas but once a month. Father Hamilton goes next Thursday so as to administer the communion on Sunday Sept 1st.

The subscription work goes on slowly. We have at present about $500 and a lot subscribed. These are mostly from large subscriptions. A number of the business men refuse outright to subscribe and others delay the matter which makes it rather tedious. The town has been begged to death as

one said when you were here.
Some of the business men say that
they are going to put right down
on all subscriptions, while others
hold off to see what will come
next least they give us too much.
However I have received a num-
ber of promises of help, and how
we can make the required amount.
I am very sorry Mr Darter can
not come, but we will try to strug-
gle along without him!

With regard to the $100, Frank
wrote me that he would send
it to the Leadville Church but
I have just sent him word as to
what you decided to do with it -
and he will let me know about the
disposal shortly.

I have not been able to secure
the Methodist Church permanently

for regular services but Mr Hazel promises to let me use it as often as possible. I will be glad when we get our own church up I'm sure. I wrote to Mr Gage and received a very kind reply. We suppose that we put a factory on instead of a steeple, a suggestion which we shall adopt. I wrote for the Church Erection application last week.

Yours &c. Jennie

Dear Doctor

I received yours of August 19 in which you desired the course you have taken in the management of the Zuni and other Pueblo stations in this territory. I am pleased that you are able to make such an able defense against the accusations of those who have criticised too freely your management. I was not aware that you had ever replied to the reports contained in the St Louis paper, and I have taken pains to show this slip to the party who pointed it out to me, the original report and shall endeavor to disabuse the minds of all who may have seen it, of what you did say on that occasion.

I am glad that you went

over all the points contained in my letter so fully. How I shall be able to meet all criticisms that have been made by others, or how suggested themselves to me when reading the proof of the work among the missions connected with the Presbyterian church in these parts.

I return the slip to you at Santa Fe as requested, and hope you will call upon the editors of one, or all of those papers who have made erroneous comments upon your remarks made at St. Louis and show them wherein you are right, before the public of this territory. It is a reasonable demand that you would make, and if they are gentlemen of honor, they will lend their types to correct their errors and misrepresentations.

I have just received my orders to go to the New York Ob, but cannot say how soon I shall break up and go, as I know of no one

ordered to relieve me.

Believe me Yours very truly

Dear Dr. Jackson:

How is it about the Brigham City business? Dr. Kendall says he never authorized you to say that he would "see Gillespie through" if he might that property. Gillespie says he never would have thought of buying it if you had not told him you and Dr. Kendall would see him through. On the strength of your promise he invested $50 out of his own pocket which he could not spare, & borrowed $250 more from Dr Graham for which he gave his

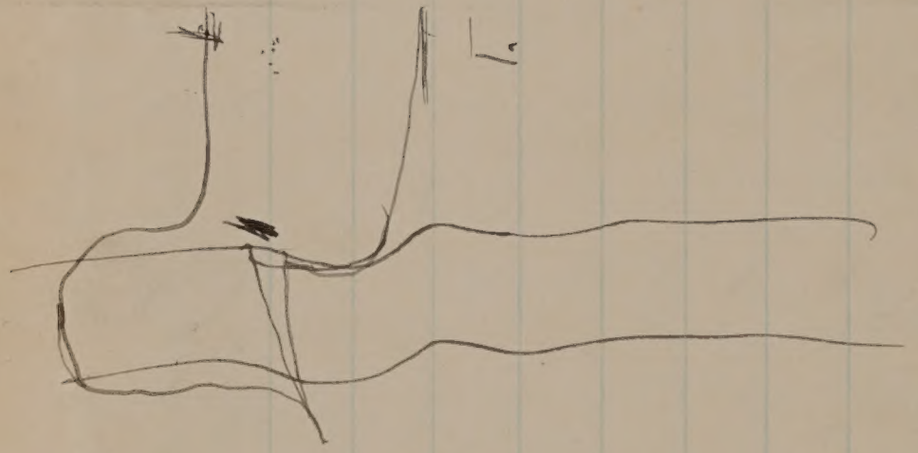
Rev. Sheldon Jackson D.D.

Dear Sir.

Your esteemed favor of the 27" inst. is to hand & contents perused with much interest & gratification. Our people (and myself & family) feel thankful to hear that you still propose to help us out & send us a minister as desired. Those of us who appreciate the importance of the matter (especially to growing families) felt somewhat discouraged with the turn the matter had taken. (You will understand better when I have explained) When I wrote you that Rev. H. was coming we thought it settled that way, as he had wrote his proposition and we at once accepted. and many of our people who have but little sympathy with any Church were ready to take part and help support him - partly because they know him and like him and partly because they did not like the M.E. & for other reasons given my letter of the 22" to him. - I never like to say anything against a person and would prefered to say nothing of Rev Green but I felt that it was time to "say out" in order to do ourselves

and could say very much more than I did - for Green has shown about every thing aside from a true Christian spirit & more of that; so we are out of patience with M.E. Ministers. - Then when the letter of Rev. H. (the enclosed) came to hand we rather infered that you were speaking through him and felt disappointed - and that our situation was not understood. We of course are not in a condition financially to act independant and must be content to take what we can get ("beggars dont be choosers") but there was no doubt that with us that a presbyn. could do a good work here & that our folks prefered that denomination and the Church being here we had better right to appeal to them than to any other and that they were more able to help us. When Rev. G. came back after conference to close up his matters, before going "Ouray" Col., he only remained one day and left without mentioning the fact that Rev. Kaufman had been assigned here Sept 1st. Mr. K. came as far as Laramie weeks before last but has not yet been here and whether he will get here at all is doubtful, to say the least. - There are now four M. E. members - one does not say much either way - one rather favored Green and two openly oppose a M E minister coming. Mr Green wrote his one friend that he had been

sent elsewhere & but Rev. K. was sent to R— and asked him (his friend- Mr Cobb) to get Rev. K. a house ~~and~~ last week Rev. K. wrote Cobb that he would not come until a house was secured for him. The matter stands in that position now and I can safely add that if K. does not come until Cobb gets him a house he will never come because Cobb is worthless and irresponsible and "could'nt muster enough influence to secure a kick from a Queen Anne musket" (Excuse the expression but I heard it made of him here and thought it worth repeating as it tells the truth) — (Yesterday I see the majority of our folks and I am inclined to think that nothing can be done to support Mr. K. if he does come- "Enough is enough they say" so you see we are still open and will do the best we can for the man we want — For my part I feel that if we dont get a presbyn.- then if Mr. K. comes here we ought to give him a fair trial — I believe there can come good come out of Nazareth and this is the third time — it ought to begood. I have not yet heard from your man but suppose it not time yet We will do as best we can until supplied- Thanking you for your kindly interest I am. Very truly yours Sincerely


I will Keep you informed of the situation — G C Smith
